Parking available at an affordable price:

Nashville Public Library

615 Church Street | Nashville, TN 37219

3-minute walk

Courses and Descriptions:

MORNING COURSE 8am to 12 noon \$80 4hr CE

Radon Measurement Standards Update | NRPP ID # KSU-1000 (4 Cat I Hrs)

This four-hour course provides an overview of the ANSI-AARST Standards consortium and the process by which standards are developed and updated. It will review all current standards and share how to access them and the resources available to the public and industry. The status of current public review will be presented for each standard currently undergoing harmonization or revision, along with how to comment in that process. The course will close with a review of the most important measurement standards and how to comply with the current guidance and requirements. Course required for all NRPP certificate renewals starting October 2023.

AFTERNOON COURSE 1-5pm \$80 4hr CE

Radon Mitigation Standards Update | NRPP ID # KSU-1500 (4 Cat I Hrs)

This four-hour course provides an overview of the ANSI-AARST Standards consortium and the process by which standards are developed and updated. It will review all current standards and share how to access them and the resources available to the public and industry. The status of current public review will be presented for each standard currently undergoing harmonization or revision, along with how to comment in that process. The course will close with a review of the most important mitigation standards and how to comply with the current guidance and requirements. Course required for all NRPP mitigation certificate renewals starting October 2023.

OR

AFTERNOON COURSE 1-5pm \$80 4hr CE

Introduction to Radon Measurement in Schools and Large Buildings | NRPP ID # Spruce-414 (4 Cat I hrs)

Radon can be present in dangerous amounts in schools, workplaces, apartments and multifamily buildings. The testing procedures and the fixes for radon and the design practices for large buildings are different than those in homes. This course introduces large building behaviors that must be accounted for when testing and fixing radon.

Prior Radon Measurement entry-level training is recommended. This 4 hour course will remind participants of some of the dynamics that influence radon entry in larger buildings and how those may fluctuate with use, HVAC changes and construction. Based on those dynamics, the basics of proper measurement will be outlined with the justifications for the procedures. The course will outline the new AARST/ANSI Standards for Conducting Radon Measurement in Schools and Large Buildings and will also answer many practical questions, including adequately pricing a large-scale job.

- **Afternoon Course:** Introduction to Radon Measurement in Schools and Large Buildings - \$80

Payment:

Payment is expected by the program start date. Course fee includes materials and refreshment breaks.

Cancellation/Refund Policy:

If you must cancel your registration, please do so as soon as possible. Substitutions are accepted. Registration fees, less a \$20 processing fee, will be refunded if notice is received in the conference registration office by 5 p.m. on **May 15**. To modify or cancel your registration, please send a written request to radoncourse@ksu.edu with the subject line "Radon Training." After that date, due to guarantees we must give, refunds are not available. Registered participants who do not cancel their registration in writing by the deadline are responsible for the total registration fee even if they do not attend and have not paid the registration fee.

Engineering Extension may cancel or postpone this program because of insufficient enrollment or other unforeseen circumstances. If the program is cancelled or postponed, registration fees will be refunded but we cannot be held responsible for other costs, charges, or expenses, including cancellation/change charges assessed by airlines or travel agencies. Registration fees will not be cancelled and refunds will not be issued if the program is held but the registrant is unable to attend due to travel delays or cancellations caused by inclement weather, or due to other extraordinary circumstances beyond the control of Kansas State University.

Questions:

Call the radon training toll free line at 833-723-6222 or e-mail radoncourse@ksu.edu for registration information. Please include the name of the event in the subject line of your e-mail.

For course questions, call Bruce Snead at 785-532-4992.

Special Assistance:

A program participant who needs accommodations due to a disability or who has special dietary requirements should indicate services needed at the time of registration. If you have further questions please contact Stephanie Lehmkuhl at 833-723-6222. Early notification is requested, by **May 8**, to ensure that accommodations can be provided in a timely manner.
